WE SUPPORT THE SUSTAINABLE DEVELOPMENT GOALS

Sproud International AB has received its Sustainability Declaration SIS/TS 2:2025 to SS-EN ISO 26000:2021, re-verified according to SIS/TS 3:2025, on 2026-05-19, which shows the organization's social responsibility to maximize the contribution to Sustainable Development.

The credibility of the Sustainability Declaration and conformity with real conditions has been verified by VERIFY Agency of Sweden AB with accreditation number 10482 and is accredited by Swedac for verification for ISO/IEC 17029:2019.

The Sustainability Declaration consists of the management's statement and the organization's answers to the questions in SIS/TS 2:2025, which is based on SS-EN ISO 26000:2021 Organizations' social responsibility - Guidance.

The scope covers all business operations conducted under Sproud International AB. Sproud International AB is headquartered in Malmö , Sweden and operates through three subsidiaries: Sproud Ltd. (London, UK), Sproud Inc. (United States), Sproud Sp. z o.o. (Poland) and Sproud North America Ltd. (Vancouver, Canada).

Assessment and Statement

VERIFY Agency of Sweden AB has verified all levels of activities that the organization states in the sustainability declaration. VERIFY Agency of Sweden AB has performed the verification through interviews with the organization's staff and through a sampling of the documentation that the organization refers to in the self-declaration and in the management of its sustainability work, such as policies, business routines, meeting planning, analyses, assessments, minutes, surveys, communication efforts, and training. An on-site audit was also performed.

Sproud International AB is a plant-based dairy company whose core operational areas include sales, marketing, research & development, quality and operations, logistics coordination and finance.

Sproud International AB has carefully answered the questions in the Sustainability Declaration and the answers are supported by substantive documentary
evidence, consistent management practice and external attestations for the areas examined. The verification concluded that Sproud's sustainability governance, policy framework, and many operational controls are effectively implemented and that reported progress on key KPIs is substantiated by available evidence. Areas for improvement were identified and transparently disclosed by management, notably: the need to increase full contractual signatory rates for all suppliers and distributors, and continued development of more systematic double materiality processes and automated data worklows. Sproud has documented plans, resources and timelines to address these issues and to strengthen data completeness and supplier engagement going forward.

Throughout the year, Sproud International AB intensified its commitment to the Agenda 2030, emphasizing the ongoing sustainability journey. This includes employee well-being initiatives, staff education on sustainability, and setting specific goals to reduce its environmental impact in 2026. Their main priorities are: reducing the carbon footprint throughout the Life Cycle Assessment (LCA), specifically focusing on raw materials; decreasing water consumption per produced ton product; reducing energy usage per produced ton product. There is clear management and division of responsibilities in the business. A high degree of transparency prevails and good business ethical behavior can be discerned throughout the business. Sproud International AB shows respect and sensitivity to the interests of stakeholders.
