Értékelés és nyilatkozat

SZABADICS Group integrates sustainability and social responsibility into its organizational framework, aligning with ISO 26000 principles and complying with SIS/TS 2:2025 standards. Through its "2026+ Sustainability Reporting Programme," the company is establishing structured, long-term performance tracking and clearer internal responsibilities while actively applying social responsibility principles across both employee relations and external partnerships.

The Group maintains an integrated management system covering six certified ISO standards (including ISO 37001 and ISO 50001) across its parent company and subsidiaries, with a strong cultural emphasis on ethics, whistleblowing, stakeholder reviews, and responsible employment.

The audit report supporting this decision was translated from Hungarian into English using digital tools and verified against the original audit documentation by the auditor, who vouches for its accuracy and completeness. Consequently, decision-maker can place reliance on the auditor’s assurance that: verification complied with both the formal agreement and the SIS/TS 3:2025 program; sufficient evidence was gathered via CertumHub, organizational governance documents, and interviews; no non-conformities were found; and all necessary clarifications have been resolved and summarized in the report.

VERIFY Agency of Sweden AB has verified all levels of operations that the organization states in the sustainability declaration. VERIFY Agency of Sweden AB has carried out the verification through interviews with the organization's personnel and through a selection of the documentation that the organization refers to in the sustainability declaration and in the management of its sustainability work, such as policies, business processes, meeting planning, analyses, assessments, protocols, surveys, communication efforts, and training.

Feltételek

The declaration must be renewed within twelve months from the date below. The declaration may be withdrawn before the expiry date if facts have emerged that show that the organisation's social responsibility has decreased.

When the sustainability-declaration is communicated publicly, it must be done together with the verification body's statement.

The decision in this matter has been made by the Decision-maker, Boris Matijas, after a presentation by Lead Impact Auditor, Eva Vati.
